SUMMARY

As a Full Stack Developer, I specialize in designing and building clean, intuitive, and user-friendly applications. I leverage the latest technologies to create efficient systems that drive innovation and enhance user experiences. Passionate about delivering high-quality software, I am committed to developing solutions that make a meaningful impact and improve the lives of others.

WORK EXPERIENCE

Full Stack Software Developer (Xtrella Inc.)   **Jan 2023 - Feb 2025**

- Built and maintained websites for project launches, ensuring seamless user experiences and functionality.
- Developed and supported systems such as a clicker bot, focusing on reliability and performance optimization.
- Utilized PHP, Laravel, Node.js, and integrated APIs to enhance application features and improve user engagement.
- Contributed to the overall architecture and performance of both client-side and server-side applications.

Full Stack Software Developer (Greenapple Technologies)   **Nov 2021 - Dec 2022**

- Developed and maintained web systems for government projects using PHP, Laravel, and Vue.js.
- Utilized MySQL databases for efficient data management and storage.
- Collaborated with cross-functional teams to design and implement scalable solutions, ensuring compliance with government standards and regulations.
- Managed version control through GitHub, improving team collaboration and code consistency.

Junior Developer Intern (TFE Software Technologies)   **Aug 2021 - Nov 2021**

- Assisted senior developers in coding and implementing new features for various projects.
- Gained strong foundational skills in HTML, CSS, and progressed to PHP development.
- Worked with frameworks, learning to build and maintain web applications, enhancing overall understanding of front-end and back-end processes.

EDUCATION

Bachelor of Science in Information Technology

Polytechnic University of the Philippines   **July 2018 - Sept 2021**
- Final GPA: 1.40

TECHNICAL SKILLS

- PHP/Laravel
- MySQL
- Github
- Vue.js

- HTML/CSS
- Javascript
- Debugging/Testing
- Wordpress
